

Keep your head above water...
**with our new Water
Protection Coverage**

Climate change, aging infrastructure, catastrophic weather events and seasonal changes are all reasons why water damage is now the #1 contributor to claims in the insurance industry today.

That is why we are offering a combined overland water and sewer back-up solution in one easy-to-understand endorsement.

Take a closer look:

Flood	Overflow from a body of fresh water
Ground Water	Snow melt and other ground saturation
Surface Water	Extreme rain
Backup	Water or sewage from sewer, septic, sump or drain
Flood Prevention	\$5,000 to protect your home in the event of an emergency warning
Backup Device	\$1,000 for installation after loss
Exterior Sewer and Water Line Failure	\$10,000 to repair broken sewer or water lines

Here is why our Water Protection coverage is the best

We have looked at the marketplace and have implemented the best coverages and best practices for our Members. No other company has all the features we offer.
